

Van Ameyde 

**We Handle Claims
and Manage Risk**

Van Ameyde Group **Introduction**

Van Ameyde Group is a global conglomerate comprising over 35 affiliated companies operating in more than 100 offices across 30 countries, predominantly in Europe and Asia. We have Van Ameyde branded companies and unique companies that we have acquired and merged with over the years. Therefore, we have become a leader in claims and risk management, committed to transforming how insurance and related industries tackle complex challenges, enhancing efficiency and precision in claims processing.

We provide our international consumers with interim staffing, claims software, marine surveying, loss adjusting, valuations, and much more. Find us serving diverse businesses, such as film, fleet, and even flora and fauna.

The red thread within Van Ameyde is that we are all guided by innovation, human connection, and results-driven excellence. We are your trusted partner in navigating today's complex global market. At Van Ameyde, "We've got your back."

Van Ameyde Brand Introduction

Thanks to Henri Van Ameyde, our founder and pioneer of the Green card system, over seven decades ago, the Van Ameyde brand was put on the map. Due to his initiative, we launched our core business, cross border motor claims. This was just the beginning of our international expansion which led to our growth and success within the insurance industry. As we expanded, so did our services and expertise. After years of determination and perseverance, we have evolved into the one-stop-shop that our consumers expected of us.

Today, we are still expanding the Van Ameyde brand with new business lines, searching for opportunities, and companies to expand our reach and expertise. From IT to Marine (and all in between), including claims handling, where it all began, Van Ameyde is the brand for all expertise throughout the entire claims process. Tomorrow, we will be recognized as experts in the claims process, offering unmatched AI-powered claims software.

Van Ameyde
We've got your back
